Steel has something new to tell.

Unique
The art of taking care of others has been Barazza’s mission for almost fifty years through every one of its products, the outstanding fruit of those years of experience and daily attention to detail. Unique represents the essence of this way of working: it is a new collection designed for you to enter a new dimension of the story. There are no words here: the pictures highlight clear-cut shapes and essential beauty. The tale is entrusted to the sense of touch. The grooves beneath caressing fingers speak of excellence, craftsmanship, creativity and uniqueness. And it’s just the beginning of a long story.
IMPERFECTION BECOMES PERFECTION

An apparently spontaneous process, but in reality the result of endless meticulous assessments and fine corrections. This vintage finish is the result of a long preparatory stage reached through an original processing which leaves room also for personal interpretation. The raw material comes to life, sensations are heightened. Everything is ready.
# UNIQUE, UNREPEATABLE, ONLY YOURS

The material takes shape under the hands of master craftsmen who transform the cold, shiny steel surface into something extraordinary. Different craftsmen, who transform the cold, shiny steel surface into something extraordinary. There is no uniformity in vintage steel: the watchword here is the spontaneous beauty that comes from the action. Every piece is unique, unrepeatable, only yours.
A complete collection consisting of ovens, hobs, hoods, sinks and taps, the fusion of craftsmanship and cutting-edge technology.

The distinctive vintage effect increases your options to personalize the kitchen, transforming even the household electrical appliances into exclusive, unique pieces of furniture.
The technological excellence is matched by the elegant purity of a minimalist style. As well as blending in with any modern style of furnishings, the ovens with digital or manual controls are also designed to meet all needs: every desire can at last be savoured to the full.
Composed of a non-deformable body without visible welded parts, the 65 litre cavity for 60 cm ovens allows to improve cooking times and subsequently electrical energy saving. 6 positions allow you to simultaneously place several dishes in the oven or cook large quantities of food. The drop-down grill makes cleaning the top of the oven cavity extremely easy. As well as being resistant to impact and to high temperatures it has an elegant shape that makes it suitable for use as a serving tray. Plate made of refractory material ideal for pizzas, fancy breads and frozen foods.

This ensures that as much heat as possible remains inside the oven, limiting heat loss to external surfaces and keeping the temperature well below regulatory limits, therefore reducing energy consumption and avoiding a situation where children may burn themselves upon accidentally touching these surfaces. Internal shelf stability. The side racks give stability to the shelves and make it safe to check dishes. They can also be equipped with telescopic oven rails. The vitreous structure of the Easy Clean enamel makes the surfaces perfectly smooth so that cooking grease and oils simply slide off for easy cleaning. The soft hinges facilitate the door opening and the interior lights make monitoring the contents of the oven easier.

The oven is available with self-cleaning panels whose surfaces exploit the effect of the heat in order to start up an automatic cleaning process: grease is turned to ash that can be easily removed with a damp cloth without the use of detergents. If necessary, the panels can be easily removed.

As well as being resistant to impact and to high temperatures it has an elegant shape that makes it suitable for use as a serving tray. Plate made of refractory material ideal for pizzas, fancy breads and frozen foods.

Food and cooking instruments are easier to handle and remove thanks to a locking device at the end of the run. Composed of a non-deformable body without visible welded parts, the 65 litre cavity for 60 cm ovens allows to improve cooking times and subsequently electrical energy saving. 6 positions allow you to simultaneously place several dishes in the oven or cook large quantities of food.
60 cm Unique built-in multifunction oven

- 8 functions + defrost function
- Mechanical 90’ timer with buzzer at end of cooking time
- Capacity: 65 litres
- Standard features: Tangential cooling fan, side racks, 2 side lights, easy-clean enamelled steel tray, 2 stainless steel shelves, drop-down grill.

**OVEN FUNCTIONS**

- Static oven
  - Top heating element + bottom heating element. For any dish, particularly suitable for baking cakes, pizzas, roasting and tarte au sucre.
- Warming oven/Heating dishes
  - Bottom heating element. Warming dishes.
- Browning oven
  - Top heating element. Browning dishes, lasagne and vegetable timbales.
- Grill
  - Central top heating element. Meat of small to medium thickness and toast bread.
- Fanned grill
  - Central top heating element + fan. Meat of large thickness and dishes that are particularly voluminous.

60 cm Unique built-in multiprogram oven Touch Control

- 10 functions
- 16 automatic cooking programs
- Touch Control digital programmer
- Capacity: 65 litres
- Standard features: Tangential cooling fan, side racks, 2 side lights, easy-clean enamelled steel tray, 2 stainless steel shelves, drop-down grill.

**Standard features**

- Tangential cooling fan, side racks, 2 side lights, easy-clean enamelled steel tray, 2 stainless steel shelves, drop-down grill.

---

**Accessories**

- SELF-CLEANING PANELS
- PYREX BAKING TRAY
- PIZZA PLATE
- TELESCOPIC OVEN RAILS
Decisive, essential, solid: the Unique hobs are a perfect example of the minimalist and vintage style of the line. The knobs, based on time-honoured Barazza models given a stylistic makeover, heighten the sensation of a passionate past with the result that the complete hob has a traditional yet innovative look.
GENERAL FEATURES

With Unique hobs boasting completely level surfaces, infiltration is completely avoided.

Barazza hobs consist of a single body that facilitates installation with tops; installation is also made easier owing to the fact that no gas regulation process is necessary; hobs operate both with methane gas and liquid gas.

Made of cast iron, just like those used in professional kitchens, they are particularly solid, resistant to heat and therefore long-lasting. They improve the distribution and maintenance of heat. Special rubber tips ensure stability and prevent scratches to the surface.

Three flame rings that use at best the power provided by the flame in order to ensure rapid and even cooking.

Turning on and regulating can be achieved in a single action using the knob. With all Barazza gas hobs, the spark plug is placed inside the burner under the cover, away from liquids which may drip from cooking utensils and from any damage which may be caused during cleaning operations. The rapid safety valve blocks the gas flow, even with the tap open, in case the flame accidentally goes out. It is activated when the burner is alighted and thanks to the rapid thermocouple, it takes just few seconds to function.

Barazza gas hobs are equipped with easily extractable one-piece burners, greatly facilitating cleaning operations.

Burners with steady flames and hotplates which provide high heat yields accompany Barazza gas hobs; they optimise energy consumption and reduce toxic substance emissions by more than 50% when compared to the details established by the Norms.

It allows for the use of woks for frying, stewing, sautéing, braising or steam cooking. Optional on request.

The edge of Unique hobs rounds off with an oblique angle.

  - 1 triple ring: 3.8 kW
- **Burners size:**
  - 98x43 cm

### Unique features coordinate perfectly

Unique hobs and sinks coordinate perfectly thanks to the edge which is the same for both.
The high performance hoods in thick stainless steel are fitted with powerful, low-noise motors that help keeping the kitchen beautifully fragrant.
# STAINLESS STEEL
The whole structure of the cooker hood and the elements that compose it are in AISI 304 stainless steel.

# DESIGN STEEL FILTERS
The filters are made of AISI 304 stainless steel and stand out for their particular and refined design.

# FILTERS SATURATION INDICATOR
A warning light and buzzer indicate when the filters are full.

# LED LIGHTING
Unique Barazza cooker hoods are equipped with 3 or 4 LED spotlights (temperature 3000K). Long-lasting and efficient, they cut energy consumption.

# ENGINE POWER
Barazza cooker hoods have an air-flow of 1,000 cubic metres per hour.

# TELESCOPIC HOSE
The height of the hose can be adapted based on your specific requirements.

# REMOTE CONTROL
The remote control, optional on request, lets you activate the LED spotlights and select the desired speed.

Advice for installation
# UNIQUE COOKER HOOD

**WALL**

Unique wall cooker hood for 90 module

- **AISI 304 stainless steel**
- optional filter extraction
- speeds: 3 + intensive speed
- air-flow: 1000 m³/h
- pressure: 520 Pa
- noise level: 62 Lw(dBA)
- duct exit: ø 150 mm + ø 120 mm reducer
- lighting: LED spotlights (temperature: 3000K)
- stainless steel filters
- filters saturation indicator
- remote control: optional
- telescopic hose
- maximum absorbed power: 0.3 kW

**VINTAGE STAINLESS STEEL/BLACK**

code 1KUNP9

Unique wall cooker hood for 120 module

- **AISI 304 stainless steel**
- optional filter extraction
- speeds: 3 + intensive speed
- air-flow: 1000 m³/h
- pressure: 520 Pa
- noise level: 62 Lw(dBA)
- duct exit: ø 150 mm + ø 120 mm reducer

Sinks with highly appealing lines, featuring steel that has undergone distinctive treatment and an ergonomic design for unhindered movements and easy handling of tableware. Available in two-bowl or single-bowl versions, the latter in two different sizes.
# UNIQUE SINKS

**GENERAL FEATURES AND OPTIONAL ELEMENTS**

- **# EXTRA THICK STAINLESS STEEL**
  Barazza sinks use extra thick AISI 304 stainless steel that is completely recyclable, resistant to corrosion, does not degrade over time and is extremely hygienic.

- **# SPACE-SAVER TRAP**
  Reduced size trap allows easier use of the space under the sink.

- **# PERIMETER OVERFLOW**
  This device is a safety factor when taps are left on, with perimeter overflow.

- **# CAPACIOUS BOWLS**
  Unique sinks have capacious bowls that can hold pans and large utensils.

- **# POP-UP PLUG**
  It allows you to empty the bowl without having to place your hands inside the bowl. Useful for avoiding splashing or burning yourself, in case the water is hot.

- **# BOWL WITH RADIUS "15"**
  Unique sinks are available with radius "15" bowls which make them easy to clean, without compromising on design.

- **# LOWERED EDGE BUILT-IN (LEB)**
  The edge of Unique sinks rounds off with an oblique angle.

- **# ROUND BASKET STRAINER WASTE WITH DRAIN COVER**
  Barazza basket strainer waste plugs are approved by LGA that certifies 100% conformity with Norm EN274. Stronger, thanks to the increased thickness of the stainless steel and plastic materials, they are equipped with seals that ensure the water remains in the bowl, always acting 100% in compliance with the Norm, even in case of a dirty bowl. Maximum water-tightness even in the joining between the trap and the basket strainer waste plug, whose screw, in order to avoid deformation of plastic components owing to thermal shock, is protected by a brass bushing. The 3” ½ basket strainer waste allows the Barazza waste disposers to be used (compatibility with other manufacturers’ waste disposers is not guaranteed). The stainless steel drain cover adds an extra touch of elegance to the sink.

- **# RECTANGULAR POLYETHYLENE CHOPPING BOARD**
  Practical chopping board in white polyethylene, available in 20x43 cm and 26x43 cm.

- **# GLASS BOWL COVER**
  The elegant 30x43 cm bowl cover in glass adds greater functionality to the sink area.

- **# STAINLESS STEEL COLANDER BOWL WITH DRAINING-RACK**
  Multi-purpose colander bowl useful for cleaning, washing and draining. Size: 15x43 cm.

- **# STAINLESS STEEL BOWL COVER WITH BLACK CHOPPING BOARD**
  The slotted stainless steel shelf features a practical sliding chopping board in black HPL. Together they create a handy, multi-functional space for chopping, rinsing, draining or storing. The bowl cover is also available without the chopping board. Size: 25x43 cm.

- **# RECTANGULAR STAINLESS STEEL BOWL COVER WITH BLACK CHOPPING BOARD**
  The slotted stainless steel shelf features a practical sliding chopping board in black HPL. Together they create a handy, multi-functional space for chopping, rinsing, draining or storing. The bowl cover is also available without the chopping board. Size: 25x43 cm.

- **# CAPACIOUS BOWLS**

- ceramic disc cartridge
- tap rotation: 360°
- tap base: ø 50 mm
- tap hole: ø 35 mm

**Unique Two shower mixer tap**
- pull out spray head
- ceramic disc cartridge
- tap rotation: 360°
- tap base: ø 50 mm
- tap hole: ø 35 mm

**Unique Two shower mixer tap**
There’s a place for everything you need at your fingertips. The accessorised channels give that final touch of efficiency and practicality to the worktop, offering a place for everything within easy reach of the sink and the hob.
# ACCESSORISED CHANNELS

## ELEMENTS

### #1 GLASS DRAINER
This drainer top is useful for resting glasses or small utensils you need while cooking on, or for draining after washing. Available as a 1-unit or 1/2-unit element.

### #2 BOTTLE HOLDER
This multi-functional element can be used as a practical storage spot for bottles, ladies, cutlery or kitchen herbs.

### #3 COLANDER
This practical colander adds a flexible element to the accessorised channel, providing a multi-purpose storage container for the things you need close to the sink or hob such as sponges, detergents, spices, cutlery and glasses.

### # POWER SOCKET HOLDER
This technological solution provides sockets just where you need them. The practical 180° rotation mechanism means that the sockets can be hidden under an elegant stainless steel cover.

### #2 BOTTLE HOLDER
It holds a set of three chopping boards in black HPL, a resistant material that continues to perform over time. Two chopping boards can easily be joined together, to create an even more practical and versatile space to work on.

### #3 COLANDER
Elegant rack in stainless steel for storing or draining plates.

### # KNIFE BLOCK
The black HPL knife block that holds twelve knives ensures you always have the knives you need available when preparing different dishes, and allows them to drip dry after washing.

### # CHOPPING BOARD HOLDER
It holds a set of three chopping boards in black HPL, a resistant material that continues to perform over time. Two chopping boards can easily be joined together, to create an even more practical and versatile space to work on.

### # DRAINING-RACK
Elegant rack in stainless steel for storing or draining plates.
**# SATIN STAINLESS STEEL ACCESSORISED CHANNELS**

**FLUSH AND BUILT-IN**

- **90 cm built-in and flush channel**
  - 2" basket strainer waste bowl
  - space for 3 units
  - AISI 304 extra thick stainless steel
  - 3 Schuko sockets
  - 1 USB socket for charging mobile devices
  - 90 cm base unit

- **120 cm built-in and channel**
  - 2" basket strainer waste bowl
  - space for 6 units
  - AISI 304 extra thick stainless steel
  - wall fixing supports
  - 10x13.8 cm mobile drainer supplied
  - 178x18 cm cut-out; 178x19 cm wall

- **180 cm channel**
  - 2" basket strainer waste bowl
  - space for 4 units
  - AISI 304 extra thick stainless steel
  - 111.5x16 cm cut-out
  - for 3 dinner plates or soup bowls

The accessorised channels and stainless steel accessories that fit inside them are available with the satin finish only.

**# ACCESSORISED CHANNELS MODULAR ELEMENTS**

- **Rotating socket holder**
  - AISI 304 extra thick stainless steel
  - 2 Schuko sockets
  - 1 USB socket for charging mobile devices
  - cover with 180° rotation mechanism

- **Chopping board holder**
  - AISI 304 extra thick stainless steel
  - 3 black HPL chopping boards
  - chopping board with magnetic mechanism

- **Draining-rack**
  - AISI 304 extra thick stainless steel
  - for 3 dinner plates or soup bowls

- **Knife block**
  - black HPL
  - for up to 12 knives

- **Colander**
  - AISI 304 extra thick stainless steel
  - wall fixing supports
  - 30x32.5 cm mobile drainer supplied
  - 178x18 cm cut-out; 178x19 cm wall

- **Large glass drainer**
  - AISI 304 extra thick stainless steel
  - for 3 dinner plates or soup bowls

- **Bottle holder**
  - black HPL shelf
  - AISI 304 stainless steel

- **Small glass drainer**
  - AISI 304 extra thick stainless steel

### Standard features:
- fixing clips, 2" basket strainer waste plug.
The composition system is based on three types of accessorised channels, designed to house three units (90 cm channel), four units (120 cm channel) or six units (180 cm channel). Six 1-unit elements (272x138 mm) and two ½-unit elements (136x138 mm) are available.

The elements which make up the Barazza accessorised channels are created using two types of material:

- Satin AISI 304 stainless steel with a high chromium and nickel content; it is completely recyclable, hygienic, free of toxic emissions and does not disintegrate over time as it is resistant to corrosion.
- Black HPL, extremely hygienic and highly resistant to scuffs, knocks, scrapes, chemical agents and heat.

Both are robust, refined and made to last, and they also provide a strong visual contrast. By putting these extremely different materials side by side, you can create elegant steel/black compositions, as well as "all steel" options, according to the furnishings as well as tastes and preferences of those spending time in the kitchen.
# SPOTLESS, FEARLESS

**# CLEANING PRODUCTS**

**# EASY CLEAN CLEANING CREAM**

EASY CLEAN is a cleaning cream developed exclusively for cleaning sinks, hobs, cooker heads, ovens and stainless steel surfaces in general. Formulated with top-quality ingredients, it is rich in polishing pigments and conditioning substances. It treats stainless steel gently, effortlessly removing limescale and greasy stains. Used periodically or as necessary, it restores lustre to the surface and forms a protective shield that delays tarnished appearance or dirt deposits.

- **Easy Clean cleaning cream**
  - Professional stainless steel cleaning cream
  - Cleans, polishes and protects stainless steel
  - Contents 250 ml each

**# EASY CLEAN MICROFIBRE CLOTH**

Barazza professional EASY CLEAN microfibre cloth is degreaser and absorbent and removes all types of stains from any stainless steel surface and not, without leaving streaks and lint, without the use of chemical detergents. The innovative product is characterized by an extraordinary softness and durability that make it indispensable for every-day cleaning.

- **Easy Clean microfibre cloth**
  - Professional microfibre cloth for everyday stainless steel cleaning
  - Degreasing and absorbent action without the use of chemical detergents
  - Size: 46 x 50 cm

| 3 clothes  | code 1PS3 |

**STAINLESS STEEL**

Stainless steel has a high level of chromium and nickel and is resistant to rusting and staining. There are different types of stainless steel; Barazza products are made of AISI 304 stainless steel (U.S. mark: American Iron and Steel Institute), containing 18% of chromium and 10% of nickel, that give steel its anti-corrosive and antibacterial properties.

For a perfect maintenance Barazza recommends:

- To rinse well with water after use and to dry with a clean cloth or a chamois leather cloth.
- Not to use detergents containing chlorine and its by-products, as muriatic acid or bleach.
- It is suggested to use a little warm white vinegar, only for persistent stains.
- Not to use steel wool or abrasive materials, that would irreparably scratch the surface.
- Not to drag objects on the top. Tissue chopping boards and matt white working in the kitchen.
- Not to place hot pans and ovens on the top in order to avoid buckling or blueing.
- Not to leave rusty metal objects on the surface for a long time.
- Not to leave open packets or bottles of detergents or other chemical substances near the product.
Stainless steel with a vintage finish can also be used for custom doors, drawers, worktops, upstands, splashbacks, side panels and shelves. Barazza is in a position to bring together artisan skill and advanced technology to satisfy requests for made to measure finishes and provide solutions to meet the needs of those people spending time in the kitchen. All of this is finished off with Barazza distinctive manually worked steel that transforms every unit into a one-off piece of special furniture. Passion for creativity and beauty blends with the possibility to customize the kitchen, to suit any style, space, colour and ambiance – to create a truly Unique effect.
There is no piece like another. Here the beauty lies in chance, which brings original twists and turns to every piece to create new effects according to the different inputs. Every piece in vintage steel is unique, inimitable, just for you. This is the added value of a handcrafted piece: quirky features, skilful craftsmanship and knowing you have a one-off.
